

NATIONAL EDUCATION

— EQUITY LAB —

Talent is
evenly
distributed
and
opportunity
is not.

We aim to
change that.

Our Mission:

Cultivating a College-Going Culture at High Schools Nationwide

[Front Page New York Times Article Here](#)

How We Began

What would happen if we brought courses from the most selective universities in the country into high schools serving historically underserved communities?

Your Guide to Applying to College

“I took this course to solidify my confidence, and my hope, to one day go to law school. With Future-L, I learned that yes, this is exactly what I want to study. This class has given me a boost to really work hard for the reform that I want to see in my community, and this country.” - *Eja Richardson, 18, Florida*
